- **Profile Summary**

  Frontend Developer with 3 years of experience specializing in **React.js, JavaScript (ES6+), responsive UI development**, and **REST API integration**. Currently working at Trigyn Technologies, delivering enterprise HR modules, automated workflows, and dashboards. Strong in building reusable components, UI state management, API-driven forms, and improving process efficiency. Seeking a React Developer role to build scalable, high-performance web applications.

- **Work Experience**

  Trigyn Technologies Limited | Software Engineer | Apr 2023 – Present
  Skills Used - React JS, JavaScript, HTML, CSS, Bootstrap, & jQuery, SQL, REST API, AJAX, React Router, State Management, DBMS, Unit Testing, Scrum/Agile

- **Skills**

  - Frontend: React.js, Context API, JavaScript, HTML5, CSS3, Bootstrap, REST APIs
  - Tools: VS Code, Git, NPM, Postman
  - Database: SQL (MySQL/PostgreSQL), Node.js basics, MongoDB
  - Other: jQuery, Apache Freemarker, Core Java, JSON, Agile/Scrum, Responsive Design, Debugging, Cross-Browser Compatibility, Testing, Writing Scenarios

- **Project: Digitalization**

  Learning & Development Training Module

  - Tech Stack: React JS, Hooks, API Integration, SQL, State Management, Components, HTML, CSS.
  - Built a digital Learning & Development module to automate training requests, approvals, scheduling, and feedback workflows.
  - Developed dynamic, component-based forms with validation, conditional rendering, and API-driven data flows.
  - Implemented role-based access control (RBAC) for HR, managers, trainers, and employees.
  - Created dashboards for 30/60/90-day training effectiveness, centralized reporting, and audit analytics.
  - Improved user experience with optimized state management using Hooks and reusable UI components.

  Auto Emails for Mandatory Refresher Courses

  - Tech Stack: HTML, CSS, JavaScript, jQuery, SQL, Apache Freemarker
  - Automated reminder emails every 15 days based on course completion using scheduled triggers.
  - Built dynamic email templates and integrated escalation logic for overdue users.
  - Ensured accuracy through database checks and configurable workflows for HR compliance.

  Trainee Confirmation Module

  - Tech Stack: React.js, JavaScript (ES6), API Integration, SQL, Freemarker, HTML, CSS
  - Developed an end-to-end trainee confirmation workflow covering confirmation, extension, and non-confirmation processes.
  - Built assessment forms, role-based approval screens, and automated email reminders using React.
  - Integrated data with Adrenalin HRMS to sync trainee status and actions.
  - Created dashboards for tracking pending approvals, escalations, and trainee lifecycle status.
  - Reduced HR manual follow-ups and processing time by 60% through automation and real-time UI updates.

  Project Registration QMS Implementation

  - Implemented multi-stage approval workflows (Project, Waiver, UN) with dynamic sequencing logic.
  - Built role-based access control with state-driven UI restrictions.
  - Developed dynamic questionnaire module with configurable master management.
  - Integrated REST APIs for automated email triggers and approval notifications.
  - Implemented project modification approval flow with audit history tracking.

- **Other Experience:**
  Panchayat Samiti & Sujal Constructions | Block Technical Officer & Site Engineer | 2018 – 2022
  Skills Used - MS Excel, MS Office, Statistics and Calculations, 53 Gram panchayat Supervision and Measurement Book Recording, Construction Site Supervision, AutoCAD, Team Handling

- **Other Projects**

  Farmer's E-Market | J2EE | 1 Month
  The central concept of the project is to bring farmer and broker together virtually using internet with allow broker to buy and farmer to sell products with help of E-Market. The main purpose of this project is that farmer can decide their product value by their own and sell accordingly

- **Certifications**
  - The Complete SQL Bootcamp: Go from Zero to Hero – Udemy
  - React Front to Back – Udemy
  - Generative AI for Web Developers AIPowered Pair Programming for FullStack Development - LinkedIn
  - HandsOn AI Implementing Agentic Systems – LinkedIn
  - Typescript: The New JavaScript for Web Development – Simplilearn Academy
  - Angular Basics – Simplilearn Academy

- **Academic Details:**
  - PG-DIPLOMA in Advanced Computing (2022) From MET IIT Nashik (CDAC - ACTS)
